## PROFESSIONAL EXPERIENCE

---

### Senior Flutter Developer, *Emilo Ventures Pvt Ltd*

02/2026 – Present  
Raipur, Chhattisgarh

- Architected and built the complete **Gift Section** module from scratch, including product catalog, gift details, search filters, wishlist, cart, order placement, cancellation, and return flows using **BLoC** and **Clean Architecture**.
- Developed the **Soft Corner** dating module with custom matchmaking UI, animated interactions, crush matching, and real-time notification-driven navigation using **Socket.IO** [🔗](#).
- Built and enhanced key features such as native camera integration using **MethodChannel** and **CameraX**, app usage analytics, event management, business pages, product reporting, explore module, profile module, localization (**l10n**), and CI/CD workflows with **Git**, **GitHub**, and flavor-based builds.

### Senior Flutter Developer, *Tanna Infotech Pvt Ltd*

02/2022 – 01/2026  
Surat, Gujarat

- Led Flutter development for multiple production applications across cloud gaming, logistics, and enterprise domains, delivering **5+ apps** to the **Google Play Store** and **Apple App Store**.
- Built and maintained **OnePlay Cloud Gaming & PC**, a cloud gaming platform with real-time game streaming, Cloud PC access, and digital gift card marketplace features.
- Developed **AICS Store**, a logistics and courier booking application with booking requests, shipment tracking, order management, and customer dashboards.
- Implemented responsive UI, **BLoC / Provider / GetX** state management, **REST APIs**, Firebase services (**Authentication**, **Cloud Messaging**, **Firestore**, **Crashlytics**), multi-flavor builds, performance optimization, and mentored junior Flutter developers.

### Flutter Developer, *Broadview Innovations Pvt Ltd*

04/2021 – 01/2022  
Surat, Gujarat

- Developed **AB NEO**, an IoT-based home automation application enabling users to remotely control and monitor electrical appliances with real-time status updates and scheduling.
- Built the app using **Flutter**, **Provider**, and **REST API** integration, and implemented device discovery, pairing workflows, real-time monitoring dashboards, **Google Maps**, location services, and Play Store deployment support.

## PROJECTS

---

### Emilo – Social Media Platform | Android & iOS [🔗](#)

- Architected and built core modules including **Gift Section** with catalog, search filters, wishlist, cart, order placement, cancellation, and return flows, and **Soft Corner** with animated matchmaking screens, crush matching, and real-time Socket.IO notifications.
- Implemented **Native Camera**, **Usage Analytics**, **Event Management**, **Business Pages**, **Product Reporting**, **Explore**, **Profile**, **Localization (l10n)**, and **CI/CD** workflows using **MethodChannel**, **CameraX**, **GetX**, **Clean Architecture**, **Git**, **GitHub**, and flavor-based builds.

### OnePlay Cloud Gaming & PC | Android, Android TV & Automotive Device [🔗](#)

- Developed **OnePlay Cloud Gaming & PC**, a cloud gaming platform enabling users to stream AAA game titles at up to **4K/120fps**, with **cloud PC** access and support for **thousands of active users**.
- Built core features including game library browsing, real-time streaming controls, subscription management, and digital gift card marketplace integration for platforms such as Steam, Xbox, and Flipkart.
- Implemented **Bluetooth/USB controller** support, keyboard and mouse input, on-screen touch controls, and responsive UI optimized for phones, tablets, and **Android TV** using Flutter and adaptive layouts.

### AICS Store | Android [🔗](#)

- Developed **AICS Store**, a logistics and courier booking platform for **AICS Logistics Pvt Ltd**, supporting international courier and dropshipping service requests.
- Built key features including booking flow, shipment tracking, order history, real-time status dashboards, pickup/delivery location selection, and route visualization using **Google Maps**.
- Integrated **Firebase Cloud Messaging**, **Crashlytics**, and analytics tracking, and deployed the application to the **Google Play Store** with production-ready release management.

### AB NEO - Smart Home Automation | Android [🔗](#)

- Developed **AB NEO**, an IoT-based home automation application that enables users to remotely control and monitor electrical appliances through **WiFi** and **Bluetooth** connectivity.
- Implemented real-time device status monitoring, on/off controls, scheduling, automation rule configuration, device discovery, and pairing workflows with smart plug and switch hardware.

- Integrated **Google Maps**, geofencing, location-based automation triggers, and a structured dashboard UI with device grouping, room-based organization, and usage statistics.

## EDUCATION

---

**Bachelor of Technology (B.Tech) - Computer Science,**  
*Devprayag Institute of Technical Studies*

08/2016 – 12/2020  
Prayagraj, Uttar  
Pradesh

**Bachelor of Science (B.Sc.) - Mathematics, CSJMU, Kanpur University**

09/2013 – 07/2016  
Handia, Uttar Pradesh

## TECHNICAL SKILLS

---

**Languages:** Dart, Kotlin, Java, Swift

**Frameworks:** Flutter, Flutter for Android and iOS

**State Management:** BLoC, Provider, GetX, RxDart

**Architecture:** Clean Architecture, MVVM, Repository Pattern, Feature-First Modular Architecture

**Backend & APIs:** REST APIs, Dio, HTTP, GraphQL, WebSockets, Socket.IO, Firebase Cloud Messaging

**Firebase:** Authentication, Firestore, Cloud Messaging, Remote Config, Crashlytics, Analytics

**Native & Platform:** MethodChannel, EventChannel, Pigeon, CameraX, AVFoundation, Platform Views

**Databases & Storage:** Hive, Isar, SharedPreferences, SQLite, Flutter Cache Manager

**Media & Camera:** FFmpeg, Video Player, Image Compression, CameraAwesome, Gallery Integration, Audio Waveforms

**Maps & Location:** Google Maps Flutter, Geolocator, Geocoding, Location Services, Geofencing

**UI/UX:** Material Design, Cupertino Widgets, Custom Animations, Lottie, Shimmer, Responsive Layouts

**Dependency Injection:** GetIt, Injectable

**CI/CD & Tools:** Git, GitHub, Android Studio, Xcode, VS Code, Flutter DevTools, Flavors (UAT/Beta/Prod)

**Deployment:** Google Play Store, Apple App Store, App Bundles, ProGuard, Code Obfuscation

**Other:** QR Code Generation, Deep Linking, Push Notifications, Local Notifications, In-App Payments, Google ML Kit, Localization (l10n)
